Jobs Avenue

SOFTWARE ENGINEER

Software Engineer with 1.9 years of experience in ASP.NET, skilled in designing and developing robust, scalable web applications. Proficient in full-stack development across both frontend and backend. Successfully led projects, including an e-commerce platform with secure payment integration. Actively seeking opportunities to contribute to and grow in dynamic, innovative development environments.

TECHNICAL SKILLS

Frontend: Angular, HTML, CSS, JavaScript, ExtJS, JQuery

Backend: ASP.NET Core, ASP.NET WebForms, PHP, VB.NET

Databases: MSSQL, Oracle SQL, MongoDB and Firebase

Tools & Frameworks: Git, Visual Studio, IIS, Net Beans, Android Studio

Languages: C, C++, C#, SQL, Type Script, Java, kotlin and Python

Other: RESTful APIs, Payment Gateway Integration

PROFESSIONAL EXPERIENCE

Acharya Associates   Oct 2023 - Nov 2024

Software Engineer

I worked on three core products: **OnlineAccounts** (accounting software with advanced features), **LicenseBusiwiz** (license verification across products), and **iJobCenter** (a job portal for hiring and applying). My primary focus was on LicenseBusiwiz, where I documented product functionalities in the Functionality Management module using markdown (.md) files for knowledge sharing. Additionally, I tackled SQL queries in OnlineAccounts, such as identifying affected tables during client registrations, and debugged challenging issues across the product suite.

Knovos Private Limited   Jan 2023 - Sep 2023
Intern/Software Developer

Gained hands-on experience with ExtJS and ASP.NET Core to build and maintain web applications. Utilized basic LINQ queries for database operations using Entity Framework (EF) Core, and leveraged .NET features like List to perform data manipulations on lists and arrays. On the ExtJS side, worked with controls like tree and developed REST APIs to retrieve and process data from the database, ensuring it was structured for display in the ExtJS interface.

ACADEMIC PROJECTS

MilkAndBarries E-Commerce Platform

Developed a full-stack e-commerce platform named MilkAndBarries using ASP.NET, implementing features such as product catalogs, shopping carts, and secure payment integration. The platform was hosted on GoDaddy, utilizing cPanel for deployment and management.

Social Media Platform (PHP, MySQL)

Built a social media platform with user features such as posts, likes, and comments, utilizing PHP for backend and MySQL for database.

XeroxShops E-Commerce Clone

Created an e-commerce website named XeroxShops clone using ASP.NET WebForms, implementing essential features such as browsing xerox types, cart management, and a streamlined checkout process.

EDUCATION

Master of Computer Application (MCA)
Sardar Patel University – 2023
